

Selection Guide for Upgraded Versions of Railway Communication-Grade Fiber Optic Ethernet Switches

Overview

Quickly identify the right Cisco switch for your needs, whether you're looking for a new switch or upgrading an old one for an enterprise LAN, a data center, outdoors, or industrial operations. Just answer a few simple questions, and our Cisco Switch Selector will recommend a product. With 20 years of design expertise, we offer high-quality EN50155 and EN50121-4 compliant products. We've collaborated with global leading rail companies worldwide to achieve many projects. Providing complete solutions from. Moxa is always striving to meet the new standards related to speed, safety, mobility, and passenger comfort for railway vehicles and systems. Recently, Moxa has successfully transitioned to the updated IRIS certification satisfying the rev 0. This Quick. R&M develops infrastructure solutions for the digitalization of rail traffic R&M, the globally active Swiss developer and provider of high-end infrastructure solutions for data and communications networks, is supporting the digitalization of the railways. Temperature hardened and low port count ideal for linking multiple RTUs & PLCs in industrial and SCADA fiber optic networks.

Selection Guide for Upgraded Versions of Railway Communication-G

Moxa provides a wide variety of 10GbE, Gigabit, Ethernet, PoE/PoE+, fiber optic, and twisted DSL solutions to facilitate high-speed data communication, simplifying field wiring and reducing installation ...

This Quick Reference Guide lists EtherWAN's best-selling network connectivity products for railway applications. Through a few simple steps, you'll be able to select the right EtherWAN product ...

Field-modular 10 Gigabit rack switches delivering high bandwidth and port density for critical infrastructure networks in harsh environments. This series of rack-mounted Ethernet Layer 2 ...

ORing offers rugged EN50155 Ethernet switches designed for railway networking. Ensure reliable data communication in rolling stock with our anti-vibration, railway-grade switch solutions.

Our Industrial Ethernet Switch portfolio comprises Managed and Unmanaged Switches with Gigabit, PoE, IEC 61850 certification, and for DIN rail mounting.

Switches range from 2 to 6 ports, speeds up to 10/100/1000. Temperature hardened and low port count ideal for linking multiple RTUs & PLCs in industrial and SCADA fiber optic networks.

Discover how FO communication solutions in rail enable robust, scalable, and reliable onboard communication infrastructures.

Use this tool to help you identify the switch you need.

R& M designs infrastructure solutions based on decades of experience with outdoor solutions for communication technology and in the construction of fiber optic networks.
