

Singapore Interferometric Fiber Optic Sensor Company

Singapore Interferometric Fiber Optic Sensor Company

Established in 1999 and based in Singapore, FiberTek started off with supplying fiber optic passive components and later on expanded its product range to satisfy the market demand.

ZYGO is a worldwide supplier of optical metrology systems, custom optical components, and complex electro-optical systems design and manufacturing.

Chromatic confocal and interferometric methods are used to measure on nearly all surfaces. White and infrared light sources are available to extend the range of materials.

LinkStar is an innovative solution provider for Optical & Wireless communication. We specialize in passive and active integrated optical component design manufacturing, RFIC MMIC product ...

KEYENCE Singapore provides Fibre Optic Sensors; Perform high-performance, high-speed detection with optical fibres designed to be used in a variety of environment conditions.

Fiber optics play a central role in enabling fast, secure, and interference-free data transmission. As one of the leading fiber optic manufacturers in Singapore, Actenn delivers precision-engineered solutions ...

Zennoptic Pte Ltd is a Singapore-based company. Our core business is in the manufacturing of sub-assemblies for optical communication system, entertainment light system, projection, scanner, ...

As leaders in thermal, high-power, and highly parallel test solutions, we partner with our customers to unlock the potential of the AI revolution. AI chips set a new paradigm in advanced packaging, high ...

Opterro offers unmatched fiber-optic sensing solutions with leading-edge system performance and decision-aid analytics. Our end-to-end solutions are deployed across multiple industries for real-time ...
