

Specifications of Multi-hole Optical Cable Protective Sleeve

Overview

These protection sleeves feature inner-sleeve ethylene vinyl acetate, providing a moisture-resistant barrier after shrinkage. A stainless-steel rod as a tension. Our popular Mini series sleeve is designed to fit in smaller width splice trays or splitter/coupler packages while accommodating up to a 900 micron diameter fiber. Due to its smaller size and weight, the shrink time averages 35 seconds. These are available in 15, 20, 25, 30, and 40mm lengths. Our fiber optic fusion splice protector sleeves are manufactured pre-shrunk in a heat-bonded assembly that consists of three components:. Molex Optical Splice Protection Sleeves utilize a full fusion function that provides protection sleeves with stable quality.

Specifications of Multi-hole Optical Cable Protective Sleeve

Whether you're building new FTTH networks or maintaining existing ones, this guide will walk you through the types, materials, applications, and best practices for selecting and using fiber ...

Corning offers a variety of splice protection choices to meet your needs. All the types of protection allow individual fiber access in the splice tray. Corning offers heat-shrink protection in both single-fiber and ...

These protection sleeves feature inner-sleeve ethylene vinyl acetate, providing a moisture-resistant barrier after shrinkage. A stainless steel rod is used as a tension member, providing ...

The FPS01 and FPS04 series are specially designed for optical components, where small packaging is a priority. These micro sleeves provide the known reliability of Fujikura sleeves in the smallest possible ...

While we offer various sizes to fit different cable diameters and splice trays, the core technical parameters of our splice protection sleeves are consistent. Below are the typical specifications you ...

Molex's optical splice protection sleeves with inner-sleeve ethylene vinyl acetate provide a moisture-resistant barrier after shrinkage and afford fusion splice protection in field fiber splicing ...

Premium 1200pcs Fiber Optic Splice Sleeves (2.6mm x 60mm) - Heat Shrink Tubing - 304 Stainless Steel - Enhanced Fusion Splicing Protection - PE Clear Coating, Hot Melt Adhesive - Reliable and ...

The sleeve is made to fit over up to a 3.0mm diameter cable while fully protecting the fusion spliced area of the fiber. Stock lengths are 32, 40 & 60mm with special lengths upon request.

Our fiber optic fusion splice protector sleeves are compatible with all splice sleeve ovens and trays. Custom sizes and lengths can also be manufactured to customer's specification. The splice sleeves ...
