

Swedish active optical device manufacturer

Overview

Lumentum is illuminating the networks of tomorrow with breakthrough optical and photonic technologies that power innovation across AI, cloud, telecommunications, industrial, and sensing applications. We are one of the Nordic region's leading service companies in the field of advanced development and manufacture of products and modules that use optical metrology. We focus on development aimed at series production and continuous improvement of existing products. HÜBNER Photonics specializes in providing high-performance photonics solutions, including a wide range of lasers tailored to diverse applications, emphasizing their commitment to innovation and reliability. NorthLab is a Gold Sponsor of OPD 2026, held in Jyväskylä, Finland – the largest yearly Photonics event in the Nordics. Explore our wide range of quality solutions tailored for you. Multilens was founded in 1983 by Lars Hellström.

Swedish active optical device manufacturer

PhotonicSweden is a national platform advancing the photonics sector and innovation in Sweden. We connect companies, academic institutions, research organizations, and public sector stakeholders ...

At NorthLab Photonics, we are pioneers in advanced fiber optic solutions, delivering unmatched precision and reliability. With over a decade of experience, we serve industries with complex ...

Discover all relevant Photonics Companies in Sweden, including Cobolt and Entangly

As a leading manufacturer of optical and digital precision technology, Olympus makes a meaningful contribution to medicine, science and industry. In the hands of our customers, our high-tech products ...

Multilens – a Swedish optics company Multilens was founded in 1983 by Lars Hellström. After 35 years in the optical industry he decided to focus on the challenge that inspired him the most – solving ...

Strategic technology area: With more than 200 active photonics companies and all major universities engaged in research and education, Sweden is a strong hub for photonics. Together with ...

Our list for Optical products manufacturers in Sweden is one of the most comprehensive in the industry. As of May, 2026, we have compiled data on 12 verified listings.

Our optical products support AI and compute infrastructure, cloud and DCI environments, metro and long-haul networks, while our lasers drive breakthroughs in precision manufacturing and sensing. ...

Founded in 1974 in Skellefteå, our company has been dedicated to optical measurement technology from its inception. Our strategy has been to build the company around high technical competence ...

Based in Stockholm, Sweden, we are optics consultants with a real lab, research background and ambition. Entangly takes over 50 years of accumulated experience and knowledge of optics and ...
