

Swiss LED screen power distribution box dimensions

Overview

The new LED display panel size is 500x500mm and consists of 84 500x500mm boxes, providing large outdoor display solutions for various activities and purposes. Therefore, for more than 20KW LED display screens, you must be equipped with a distribution cabinet with a distributed step-by-step power-on function to slow down the current impact and protect the power grid and equipment. Our Focus is on high quality, high cost performance, energy saving and environmental. The LED SOLUTION 60KW PDU (Power Distribution Unit) for LED displays is a specialized device designed to manage and distribute electrical power efficiently to large LED display systems.
