

Uruguay Self-Supporting Optical Cable Junction Box

Overview

The optical distribution box features 2 cable inlet ports and 12 cable outlet ports, supporting 12 adapters and up to one 1x8 mini PLC splitter for efficient optical signal distribution, while also allowing up to 20-core fiber splicing. USER FRIENDLY INSTALLATION - Snap-on cover and simple setup with just 4 screws. Designed for FTTH, FTTO, and FTTD applications, it features a 4-port configuration. Check each product page for other buying options. Need help?

A demarcation point involves the connection location where customer-owned telecom equipment links to the public network's wiring. These low-voltage connections require remote network interface (RNI) boxes, cabinets or junction enclosures for protection against potentially damaging elements like. At JSL Material Eléctrico, we provide a complete protection system for electrical junctions, covering all project requirements: from the quickest and most direct installation to applications demanding the highest technical rigor. The FUSION series represents a modern approach to on-site. Cable junction box with interlocking crowns in GRP, with a steel frame, with GRP lid, usable area 500x500mm, height 600 mm or customizable, resistances of 1. Get in

touch for quality fiber optic.
