

Warranty for Active Photonic FP Equipment

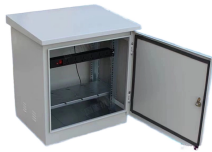

Overview

(AC) offers a limited warranty, up to one year (warranty period), effective from the date of delivery, to the receiver of AC's products so delivered, pursuant to the receiver's original purchase order issued to AC, against defects in material or (and). AC Photonics, Inc. This warranty covers any defects in materials or assembly workmanship under normal use, excluding routine maintenance. The MPW Base Active PIC consists of one silicon and two silicon nitride waveguides. Six implant levels are available for active component design, a Ge photodetector, two copper wiring levels, and an Al termination pad level. We specialize in the manufacture and repair of CO₂ marking lasers in 10. Some non-standard lasers and accessories may have different warranties. Contact your sales person for details. The Advanced Photonix provides innovative photonics, optoelectronics and advanced electronic systems for Aerospace & Defence, Medical, Agricultural, and Industrial Original Equipment Manufacturers (OEMs) who demand high reliability, high-performance and market-driven technology solutions today.

Warranty for Active Photonic FP Equipment

With a catalog of over 9000+ products and the technical expertise that comes with a century of experience, we can meet and exceed the requirements of any critical surfacing application.

Photonics Industries International Inc., the global leader in advanced diode-pumped solid-state laser technology, today announced a major performance enhancement to its popular DX-355-50 ...

Features, cross-section, customization options, MPW run schedule and pricing for the AIM Photonics Base Active PIC.

The official website of Hamamatsu Corporation whose mission is to advance science and industry through photonic technologies. Our products include optical sensors and components, cameras, light ...

Photonic Health offers a limited lifetime warranty on all hand-held devices. If the device quits working, we will repair or replace it at no charge. For more information, click here. We want you to be ...

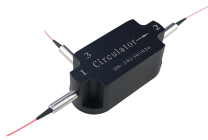

We specialize in the manufacture and repair of CO2 marking lasers in 10.6, 10.3, and 9.3-micron wavelengths. Our commitment to delivering quality products and services has helped us to become ...

Advanced Phoenix provides innovative photonics, optoelectronics and advanced electronic systems for Aerospace & Defence, Medical, Agricultural, and Industrial Original Equipment Manufacturers ...

Please complete the fields in the following form to activate the warranty for your IPG Photonics product. Registration ensures that the best possible service and technical support is made available to YOU, ...

AC Photonics, Inc. (AC) offers a limited warranty, up to one year (warranty period), effective from the date of delivery, to the receiver of AC's products so delivered, pursuant to the receiver's original ...

Warranty service includes on-site support for installation and repairs to ensure the equipment operates as specified, without additional cost to the customer.
