

# What are the prices for fiber optic cable splicing

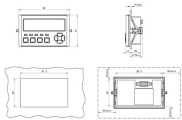

### Overview

Typical rates range from \$75 to \$180 per hour per technician, with on-site time often dominating the total. Hidden costs include traffic control, trench restoration, and post-repair verification testing. Includes fusion/splice, testing, and basic materials. The cost of splicing fiber optic cables can vary significantly based on several factors, including the type of splice, the equipment used, the location of the job, and the expertise required.

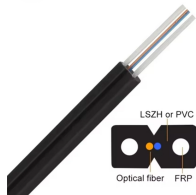

What are the prices for fiber optic cable splicing

|                                                                                     |                                                                                                                                                                                                                         |
